

**75-BRS****\*\*\*PICK LIST\*\*\***

This kit contains parts supplied by Zenair for the installation of a BRS-6 type 1350 softpack LSA in the rear baggage area of the STOL and/or CRUZER CH 750 kit aircraft. Installation drawings and a complete list of the parts and hardware necessary for this installation are available from BRS. Most non-Zenair installation components (including parachute, harnesses and rocket) are available from BRS or from Aircraft Spruce. The following pick-list is only for those parts that are supplied by Zenair:
